Post Graduate Diploma in Information Technology Management (PGDITM) (Approved by AICTE)

Programme Overview

With the increasing use of technology in all sectors of economy, AIMA CME has redesigned and revitalized its flagship program PGDITM offered in Distance Mode. The program is a balanced blend of management and IT courses to address the industry's need of "Techno-Managers" who can understand the business functions and at the same time knows the technology to make it more effective.

The program aims at providing in-depth knowledge in all verticals of management along with cutting edge tools of information technology.
